Fort Worth, TX 76102

Re: M & C G-16752

Dear Mayor Moncrief and members,

The Fort Worth League of Neighborhoods supports a **denial** of a waiver request by Quicksilver Resources for a Gas Well Permit less than 600 feet from a protected use – in this case, residences – at the Alliance TCN Lease located at 3897 Litsey Road.

Our practice in previous cases involving requests for waivers for well permits less than 600 feet from a protected use has been to support denial of such requests and to support the wishes of residential property owners. That is our position in this case. We encourage the Council to hold to the practice established in the Gas Drilling Ordinance of not permitting wells closer than 600 feet to protected uses, including residences.

Sincerely,

Libby Willis
Chairman, FWLNA Gas Drilling Committee
